# Orders Management

Handle all incoming orders with our comprehensive management system. Track order status, manage delivery times, communicate with customers, and maintain complete control over your restaurant's order flow. Efficiency meets simplicity.

The screenshot shows the 'Order Management' interface. On the left is a sidebar menu with options: Dashboard, Categories, Menu Management, Extras, Orders (highlighted), Branches, Vehicles, and Settings. The main content area has a title 'Order Management' and a '+ Create New Order' button. Below is a table with the following data:
